

GLOVERSVILLE FIRE DEPARTMENT

Thomas Groff Fire Chief

Our Vision...

As members of the Groversville Fire Department, we share a vision of providing a safe community to the citizens and visitors of Groversville as well as improving their quality of life. We will strive to eliminate the loss of life and property resulting from fire, medical emergencies, natural/man-made disasters, and any other emergencies or issues. We aim to be cost-effective, part of an overall City team, and to exceed our community's expectations.

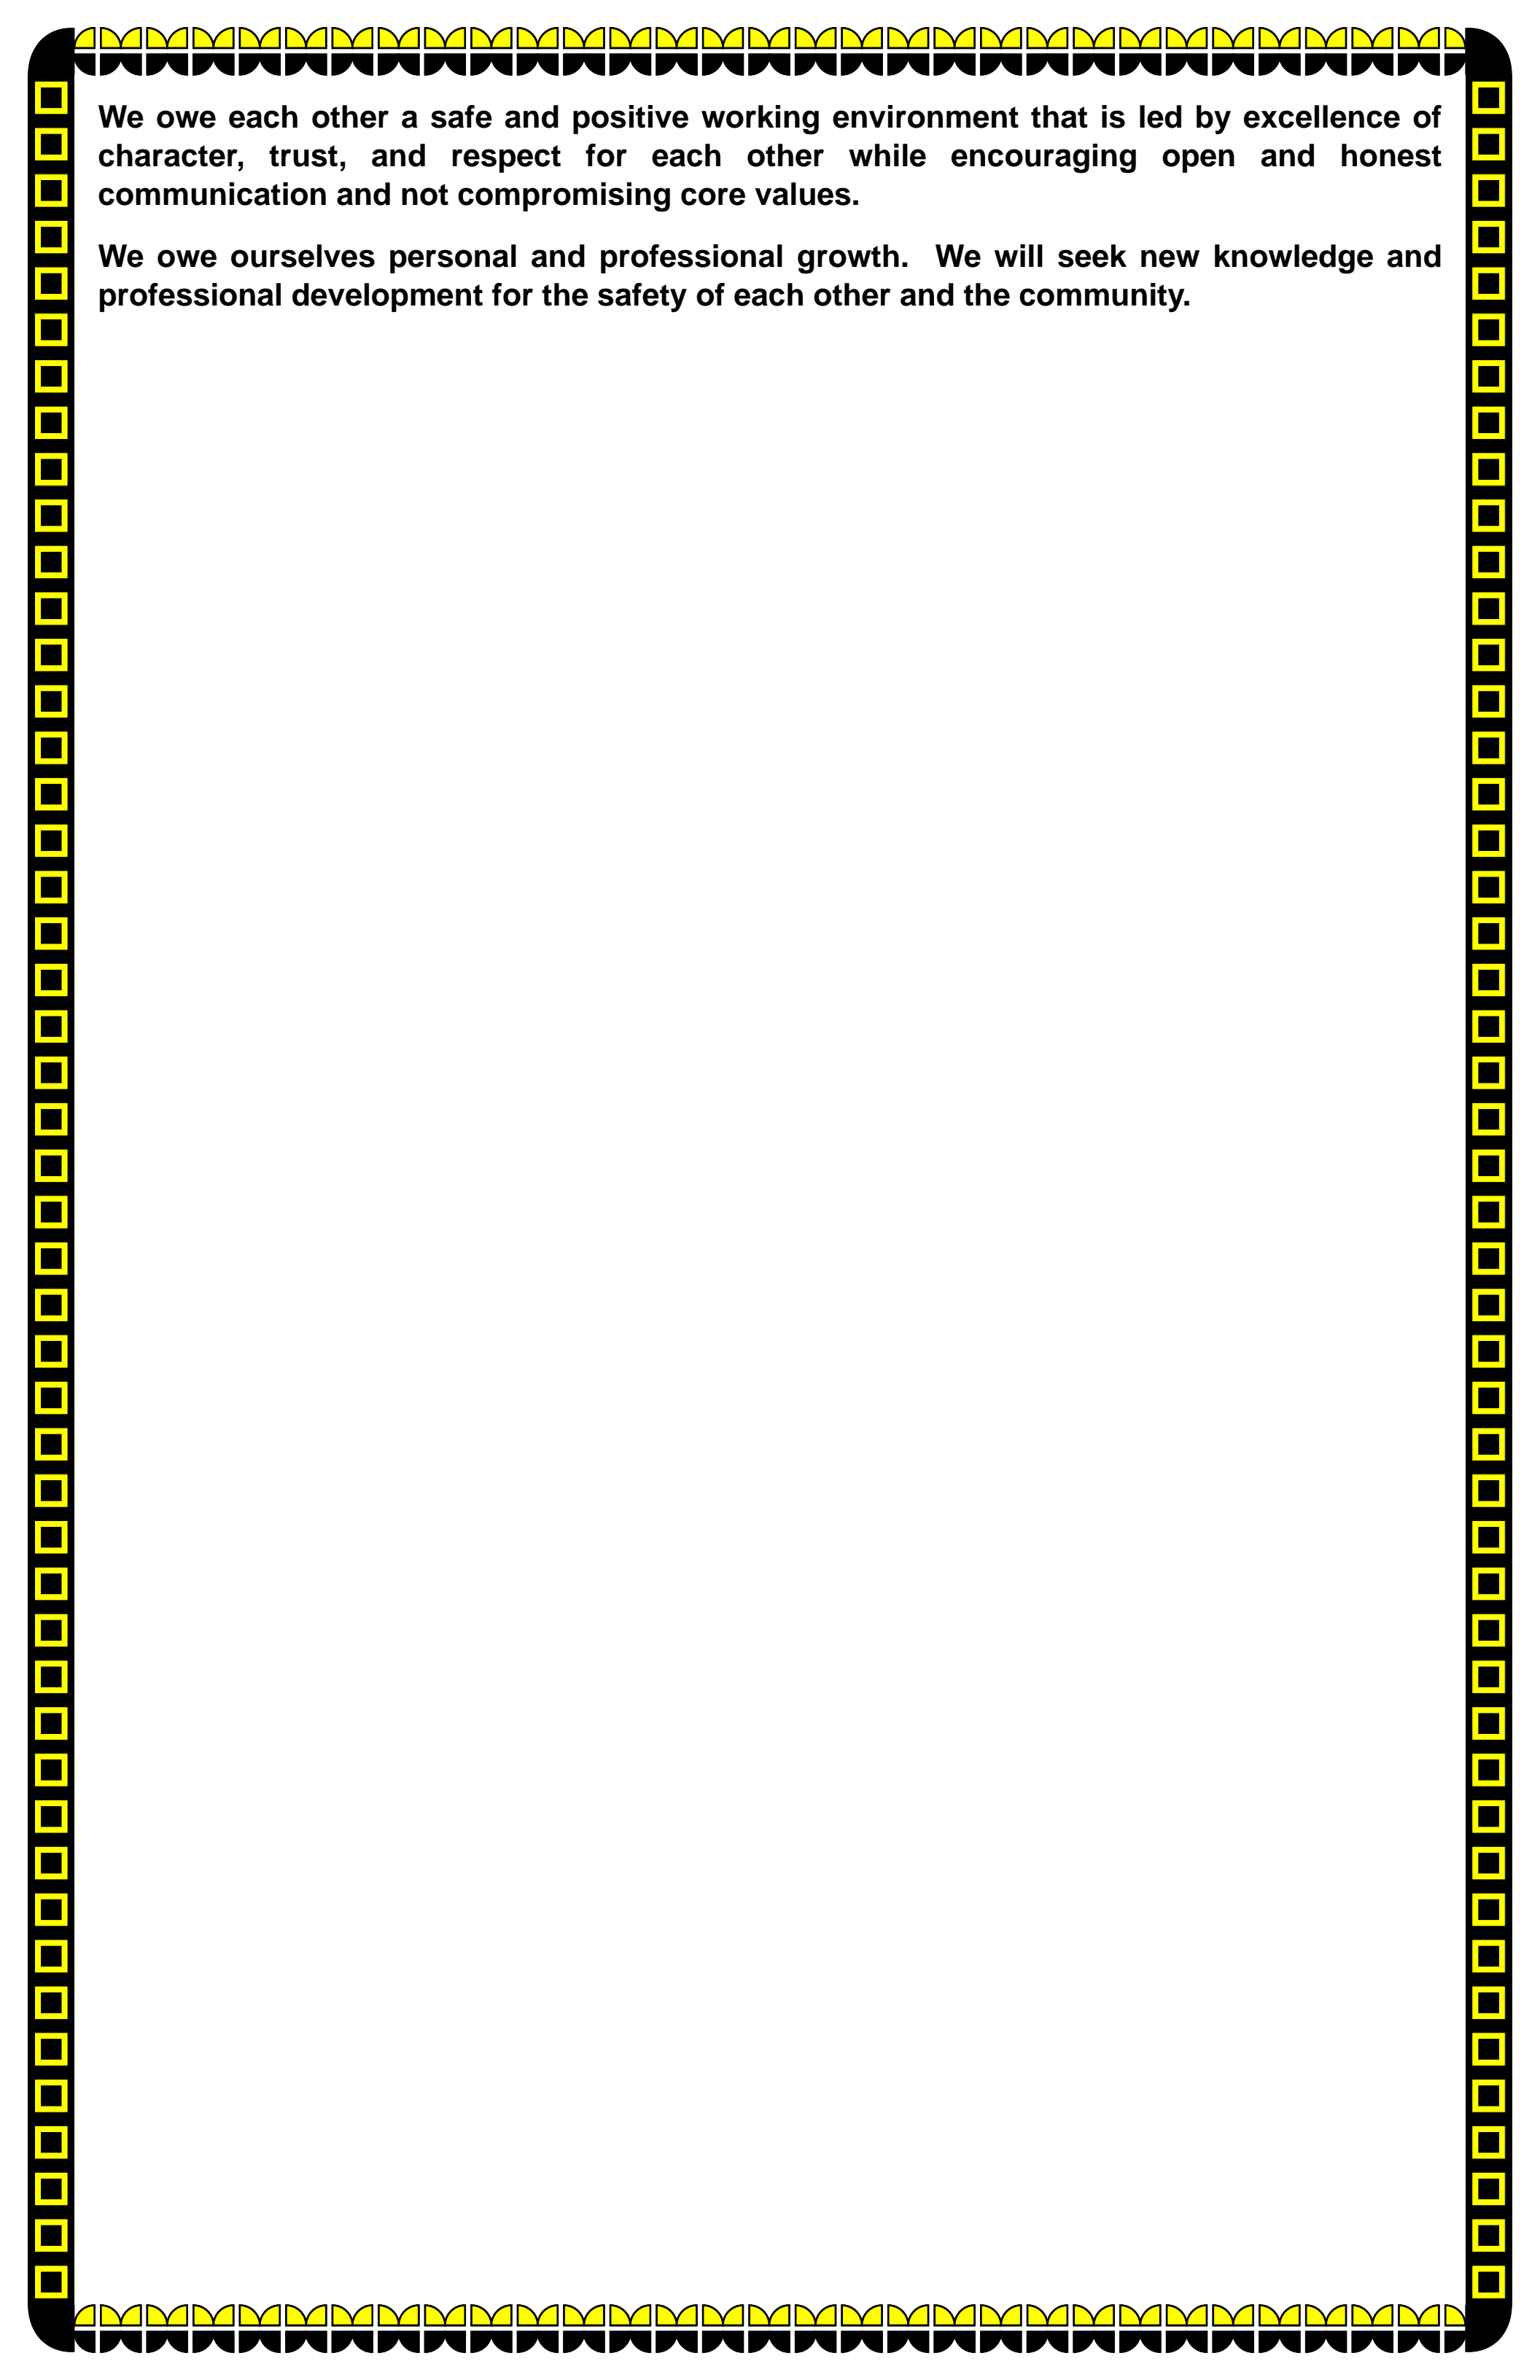

Our Mission...

It is our mission to make a difference. We will accomplish our vision by working together with other City Departments as a cohesive part of an overall team and by exceeding the needs of an ever-changing community. We will provide a fiscally responsible, professional public safety service, with highly-trained and dedicated members. Our service will include, but is not limited to, aggressive fire suppression, incident prevention, pro-active education, emergency medical services, code enforcement, fire investigations, and other related emergency and non-emergency activities. We will protect and serve the citizens and visitors of Groversville with dedication, compassion, and empathy, while being guided by values of professionalism, trust, integrity, honesty, loyalty, pride, and commitment.

Guiding Principles...

We owe our community the highest quality of service possible and we will continually strive for quality improvement. We will also serve as positive role models, lead by example, and be accountable to those that we serve.

We owe the Groversville Fire Department our full commitment and dedication. We will always look beyond our individual positions to promote teamwork and unity and we will strive for excellence in everything we do. Lives depend on it.

We owe each other a safe and positive working environment that is led by excellence of character, trust, and respect for each other while encouraging open and honest communication and not compromising core values.

We owe ourselves personal and professional growth. We will seek new knowledge and professional development for the safety of each other and the community.
