Use of Force

300.1 PURPOSE AND SCOPE
Law enforcement officers around the country and here in New York State are authorized to use reasonable and legitimate force in specific circumstances. Federal constitutional and state statutory standards dictate when and how much force can be used. This policy is founded in these standards, but is not intended to be an exhaustive recitation of state and/or federal legal framework governing use of force. This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner (Executive Law § 840(4)(d)(3)).

300.1.1 DEFINITIONS
Definitions related to this policy include:

Objectively Reasonable - An objective standard used to judge an officer's actions. Under this standard, a particular application of force must be judged through the perspective of a reasonable officer facing the same set of circumstances, without the benefit of 20/20 hindsight, and be based on the totality of the facts that are known to that officer at the time that the force was used.

Deadly Physical force - Force reasonably anticipated and intended to create a substantial likelihood of causing death or very serious injury. This includes force that, under the circumstances, is readily capable of causing death or serious physical injury (Executive Law § 840).

Force - The application of physical techniques or tactics, chemical agents or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed, or restrained.

Physical Injury - Impairment of physical condition or substantial pain.

Serious Physical Injury - Physical injury which creates a substantial risk of death, or which causes death or serious and protracted disfigurement, protracted impairment of health or protracted loss or impairment of the function of any bodily organ.

300.2 POLICY
The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The federal and state standards by which use of force is measured are both founded in the basic premise of objective reasonableness. The amount of force that is used by the officers shall be
the amount of force that is objectively reasonable under the circumstances for the officer involved to effect an arrest, prevent an escape, or in defense of themselves or others. The standard of objective reasonableness, established by the United States Supreme Court in *Graham v. Connor*, is used in this policy and is intended to provide officers with guidelines for the use of force, including deadly physical force.

As the Supreme Court has recognized, this reasonableness inquiry embodies "allowance for the fact that police officers are often forced to make split-second judgments - in circumstances that are tense, uncertain, and rapidly evolving - about the amount of force that is necessary in a particular situation.

The City of Gloversville Police Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation and a careful balancing of all interests.

300.2.1 DUTY TO INTERVENE
Any officer present and observing another officer using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intervene to prevent the use of unreasonable force. An officer who observes another employee use force that exceeds the degree of force permitted by law should promptly report these observations to a supervisor.

300.3 USE OF FORCE
Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons or methods provided by this department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.
While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.3.1 USE OF FORCE TO EFFECT AN ARREST
A police officer or a peace officer may use reasonable physical force to effect an arrest, prevent escape of a person from custody, or in defense of self or others from imminent physical force (Penal Law § 35.30).

Force shall not be used by an officer to (Executive Law § 840):

(a) Extract an item from the anus or vagina of a subject without a warrant, except where exigent circumstances are present.
(b) Coerce a confession from a subject in custody.
(c) Obtain blood, saliva, urine, or other bodily fluid or cells from an individual for scientific testing in lieu of a court order where required.

300.3.2 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE
When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include but are not limited to:

(a) Immediacy and severity of the threat to officers or others.
(b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
(c) Officer/subject factors (i.e., age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
(d) The effects of drugs or alcohol.
(e) Individual’s mental state or capacity.
(f) Proximity of weapons or dangerous improvised devices.
(g) The degree to which the individual has been effectively restrained and his/her ability to resist despite being restrained.
(h) The availability of other options and their possible effectiveness.
(i) Seriousness of the suspected offense or reason for contact with the individual.
(j) Training and experience of the officer.
(k) Potential for injury to officers, suspects and others.
(l) Whether the individual appears to be resisting, attempting to evade arrest by flight or is attacking the officer.
(m) The risk and reasonably foreseeable consequences of escape.
(n) The apparent need for immediate control of the individual or a prompt resolution of the situation.
(o) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
(p) Prior contacts with the individual or awareness of any propensity for violence.
(q) Any other exigent circumstances.

300.3.3 PAIN COMPLIANCE TECHNIQUES
Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed department-approved training. Officers utilizing any pain compliance technique should consider:

(a) The degree to which the application of the technique may be controlled given the level of resistance.
(b) Whether the individual can comply with the direction or orders of the officer.
(c) Whether the individual has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

300.3.4 CAROTID CONTROL HOLD
Gloversville Police Officers are not authorized to use a Carotid Control Hold.

300.4 DEADLY FORCE APPLICATIONS
Use of deadly force is justified in the following circumstances:

(a) An officer may use deadly force to protect him/herself or others from what he/she reasonably believes would be an imminent threat of death or serious bodily injury.
(b) An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the individual has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the officer reasonably believes that there is an imminent risk of serious bodily injury or death to any other person if the individual is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if an officer reasonably believes any of the following:

1. The individual has a weapon or is attempting to access one and it is reasonable to believe the individual intends to use it against the officer or another person.
2. The individual is capable of causing serious bodily injury or death without a weapon and it is reasonable to believe the individual intends to do so.

300.4.1 SHOOTING AT OR FROM MOVING VEHICLES
Shots fired at or from a moving vehicle are rarely effective. Officers should move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

300.5 REPORTING THE USE OF FORCE
Any use of force by a member of this department shall be documented promptly, completely and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure, or law (Executive Law § 840).

300.5.1 NOTIFICATIONS TO SUPERVISORS
Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

(a) The application caused a visible injury.
(b) The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.
(c) The individual subjected to the force complained of injury or continuing pain.
(d) The individual indicates intent to pursue litigation.
(e) Any application of the conducted energy device or control device.
(f) Any application of a restraint device other than handcuffs, shackles or belly chains.
(g) The individual subjected to the force was rendered unconscious.
(h) An individual was struck or kicked.
(i) An individual alleges any of the above has occurred.

300.6 MEDICAL CONSIDERATIONS
Prior to booking or release, medical assistance shall be obtained for any person who exhibits signs of physical distress, has sustained visible injury, expresses a complaint of injury or continuing pain, or was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until he/she can be medically assessed.
Use of Force

Based upon the officer’s initial assessment of the nature and extent of the individual’s injuries, medical assistance may consist of examination by an emergency medical services provider or medical personnel at a hospital or jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor, or if not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Individuals who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain (sometimes called “excited delirium”), or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away (see the Medical Aid and Response Policy).

300.7 SUPERVISOR RESPONSIBILITIES

When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to (Executive Law § 840):

(a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.

(b) Ensure that any injured parties are examined and treated.

(c) When possible, separately obtain a recorded interview with the individual upon whom force was applied. If this interview is conducted without the individual having voluntarily waived his/her Miranda rights, the following shall apply:
   1. The content of the interview should not be summarized or included in any related criminal charges.
   2. The fact that a recorded interview was conducted should be documented in a property or other report.
   3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.

(d) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas.
   1. These photographs should be retained until all potential for civil litigation has expired.
Use of Force

(e) Identify any witnesses not already included in related reports, including any officers present at the incident.

(f) Review and approve all related reports.
   1. Supervisors should require that officers who engaged in the use of force submit the appropriate report.

(g) Determine if there is any indication that the individual may pursue civil litigation.
   1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.

(h) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy noncompliance or if for any reason further investigation may be appropriate.
   1. Disciplinary actions will be consistent with any applicable disciplinary guidelines and collective bargaining agreements.

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

300.7.1 SHIFT SUPERVISOR RESPONSIBILITIES
The Shift Supervisor shall review each use of force by any personnel within his/her command to ensure compliance with this policy and to address any training issues.

The Shift Supervisor should ensure that the Chief of Police and the command staff are provided with enough information to meet the use of force reporting requirements for the DCJS (Executive Law § 837-t).

300.7.2 USE OF FORCE DATA COLLECTION
The Chief of Police or authorized designee shall ensure that reports are submitted to the DCJS when an officer (Executive Law § 837-t):

(a) Brandishes, uses, or discharges a firearm at or in the direction of another person.

(b) Uses a carotid control hold or similar restraint that applies pressure to the throat or windpipe of a person in a manner that is reasonably likely to hinder breathing or reduce intake of air.

(c) Displays, uses, or deploys a chemical agent or control device, including but not limited to oleoresin capsicum (OC), pepper projectiles, tear gas, batons, or kinetic energy projectiles (see the Control Devices Policy).

(d) Brandishes, uses, or deploys an impact weapon.

(e) Brandishes, uses, or deploys an electronic control weapon, including an electronic stun gun, flash bomb, or long-range acoustic device (see the Conducted Energy Device Policy).

(f) Engages in conduct which results in the death or serious bodily injury of another person. Serious bodily injury is defined as bodily injury that involves a substantial risk
Use of Force

of death, unconsciousness, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

Beginning July 11, 2019, each law enforcement agency will be responsible for reporting information for their own officers who are involved in use-of-force incidents that meet the criteria of the data collection. Law enforcement agencies will be required to submit details of the incident to DCJS, including, but not limited to date of incident, agency involved, county, town/city, description of circumstances, and demographics of all persons engaging in the use of force or suffering such injury. The data collection mechanism shall be located on the IJ Portal.

300.8 TRAINING
Officers will receive annual training on this policy and demonstrate their knowledge and understanding on the proper application of force. Training topics should include applications of use of force and conflict prevention, conflict resolution and negotiation, and de-escalation techniques and strategies, including, but not limited to, interacting with persons presenting in an agitated condition as well as duty to intervene and prohibited conduct as required by the State Use of Force Model Policy (Executive Law § 840).

300.9 PUBLICATION OF POLICY
This policy shall be readily available to the public upon request and shall be posted on the department website (Executive Law § 840).
